Optional: Vase

Granite Color: Classic Pink TMC-27N

Remembering their journey.

Choosing a memorial for you and your family is an important, personal decision. The following points should be considered as you begin:

1. Memorial Size: Flat, grass level markers are available in an array of sizes depending on your preference and the design chosen. Cemeteries have different rules and regulations regarding sizes of memorial markers allowed in a certain location; therefore, the first step of designing a memorial is knowing the sizes allowed in your location.

2. Design: We offer personalized and traditional designs tailored to interests and hobbies, religious affiliations, classic designs and special themes of the Northwest. Our skilled memorial artists can also help you customize a design for a truly unique memorial. Choose a design that reflects the personality of the individual it commemorates.

3. Granite Color: There are many different granite colors to choose from. Certain designs work better on some colors, and we will work with you to create a monument that combines the beauty of the stone with your personal design.

4. Add personal elements: Add an inscription, emblem, signature or picture that represents the uniqueness of your loved one. Custom artwork or carving can convey your one of a kind message.

As you are purchasing a monument that will endure for generations, it's important to know that Premier Memorial is a family run business that will be with you in the years to come. We are the oldest monument manufacturer in the Northwest, with continuous operations since 1896. Trusted by generations, Premier Memorial creates memorials that allow families to "Always Remember" their loved ones.

PORCELAIN PHOTOS

A lasting color photo of your loved one.

Images are worth countless words. A photograph of a loved one stirs the heart and summons poignant memories of life-defining moments.

A photograph of a loved one, either past or present, can make a special addition to a memorial. A picture or photograph can be added to any monument to capture a time that memories are made of.

MONUGLASS

EVERLASTING COLOR.

Permanent color inlays for your memorial.

Imagine adding a red heart to your memorial that will forever remain red. Art glass is color—all the way through and its color does not wear down with age, but remains as brilliant as the day it was made.

Our art glass undergoes a proprietary manufacturing process to yield a glass that is perfectly matched to the properties of granite to ensure a permanent colorful inlay. Many stock and custom designs are available.

What can we create for you?
